SUMMARY

Dedicated and detail-oriented tech enthusiast with strong expertise in SQL, data management, and database technologies. Completed a 3-month Data Analytics internship at Renu Sharma Foundation, applying analytical skills to real-world datasets. Hands-on experience as a Trainee at DUCAT and leadership as an Event Coordinator have sharpened my problem-solving and project management abilities. Actively engaged in programming bootcamps and workshops, building a solid foundation in coding. Passionate about continuous learning and eager to tackle challenges that drive professional growth.

SKILLS

Technical Skills	Proficient in Microsoft Office Suite (Excel, Word, PowerPoint) Structured Query Language (SQL). Basic Power BI Basic Python Programming Language.
Life Skills	Exceptional communication, creative thinking, adaptability, problem-solving, and continuous learning mindset.

WORK EXPERIENCE

Event Coordinator — Dec 2023 – Present

– Responsible for managing and coordinating events.
– I directed all activities related to event management and coordination, ensuring that everything ran smoothly.
– I managed a team of over 10 members, promoting collaboration and ensuring that tasks were completed on time.
– I successfully organized and executed corporate events, launch events, and birthday parties.

Renu Sharma Foundation, Data Analytics Internship — Jan 2025 - Apr 2025

– Utilized **Excel** and **SQL** to create analytical reports, track metrics, and maintain accurate company data.
– Led a team of **20–25 interns**, coordinating tasks, providing guidance, and ensuring project deadlines were met.
– Promoted from **Intern** to **Sr. HOD Intern** in recognition of leadership, performance, and contribution to team efficiency.

Trainee, DUCAT — Sep 2024 – Mar 2025

– This training institution is recognized for its IT programs, specializing in cutting-edge technology skills.
– During the training, I applied SQL to manage, manipulate, and retrieve data across various queries, ensuring accurate and efficient database operations. Additionally, I utilized Excel for advanced data management, analysis, and visualization to generate actionable insights.

PROJECTS

Project: Online Retailer Excel Project   Link to Demo

This project aims to manage and analyze retail data.
It is designed to help businesses better understand their retail information by organizing it into structured formats.

Project: Project: Movie Industry SQL Project   Link to Demo

Project involving data retrieval in the Movie Industry.
Designed and implemented SQL queries to retrieve and analyze data from a movie industry database. .

EDUCATION

Institute of Information Technology and Management,Janakpuri, Delhi   2025-present
Master's Degree in Master of Computer Applications

CPJ College of Higher Studies and School of Law, Delhi   2022 - 2025
Bachelor's Degree in Bachelor Of Computer Applications

Lions Public School, Delhi
– CLASS XII by C.B.S.E. 2021-2022
– CLASS X by C.B.S.E. 2019-2020
